and at a safe distance from any highway, street, public thoroughfare, or public place, made and closed so as to prevent unauthorized persons having access thereto, and to secure it from danger from without:

Provided that a quantity not exceeding 15 lbs. of such explosive may be kept inside any building other than as last aforesaid, in a receptacle exclusively appropriated to keeping explosive.

3. All articles or substances of an explosive or highly inflammable nature shall be kept at a safe distance from the explosive and from any building or receptacle containing the same.

4. Neither the building exclusively appropriated for the purpose of keeping the explosive nor the receptacle shall have any exposed iron or steel in the interior thereof.

5. All such explosives exceeding 1 lb. in amount shall be kept in a substantial case, bag, canister, or other receptacle made and closed so as to prevent the explosives from escaping.

6. Each description of explosive which may be lawfully kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other.

7. The license-holder shall, at the time of purchase, have the following particulars endorsed upon his license by the vendor from whom he purchases and under the vendor's signature:—

(*a*) the name and address of the person who takes delivery of the articles purchased;

(*b*) the nature and amount of the articles purchased;

(*c*) the date of purchase.

Form E.

(See Rule 17.)

FEE—TWENTY RUPEES IN STAMPS.

License to possess explosives.

Granted by the Local Government.

Name of license-holder and residence.	Boundaries of the land forming the site of the magazine to which the license applies.	Situation, character, and construction of the buildings and works connected with the magazine.	Description of explosive to be possessed.	Amount of explosive to be possessed at the same time in the magazine and within the boundaries of the site thereof.	Date on which license expires.

District, (Signature)

189 . Seal. *of*

Conditions.

1. This license is given subject to the provisions of the Indian Explosives Act (IV of 1884) and the rules thereunder.

2. There shall not be at the same time in the magazine an amount of explosive exceeding the amount specified in the license.

3. The magazine shall be used only for the keeping of the explosive or explosives specified in the license, and of receptacles for, or tools or implements for work connected with the keeping of such explosive or explosives.

4. The interior of the magazine and the benches, shelves, and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel, and the detaching of any grit, iron, steel, or similar substances in such manner as to come into contact with the explosive, and such interior, benches, shelves, and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean; and in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom.

5. The magazine shall have attached thereto a sufficient lightning conductor which shall be tested at least once a year.

6. Before repairs are done to or in any part of a room or magazine, it shall, as far as is practicable, be cleaned by the removal of all explosive or mixed ingredients thereof, and the thorough washing out of such room or part; and after such cleaning, these conditions shall cease to apply to explosive until such room or part of the magazine is again taken into it.

7. Except after such cleaning, all tools and implements used in, or in any repairs to, any part of the magazine shall be made only of wood, copper, or brass, or some soft metal or material, or shall be covered with some safe and suitable material.

8. Due provision shall be made by the use of suitable working clothes without pockets, suitable shoes, searching and otherwise, or by some such means for preventing the introduction into the magazine of fire, lucifer matches, or any substance or article likely to cause explosion or fire, or any iron, steel or grit; but this rule shall not prevent the introduction of an artificial light of such construction, position, or character as not to cause any danger of fire or explosion.

9. No person shall smoke in any part of the magazine.

10. No person under the age of 16 years shall be employed in or enter the magazine except in the presence and under the supervision of some grown-up person.

11. Two or more descriptions of explosive, which may lawfully be possessed in a licensed magazine,

may be passed in the same magazine, if they are separated from each other by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other, subject to the following qualifications:—

(*a*) The various explosives of classes 1 (gunpower), 2 (nitrate-mixture), 3 (nitro-compound), and 4 (chlorate-mixture), safety fuze belonging to the 1st division of class 6 (ammunition), and such of the various explosives of the 2nd division of class 6 (ammunition) as do not contain any exposed iron or steel, may be kept with each other without any intervening partition or space.

(*b*) The various explosives of the 1st division of class 6 (ammunition) may be kept with each other without any intervening partition or space.

(*c*) Such of the various explosives of the 2nd division of class 6 (ammunition) as contain any exposed iron or steel may be kept with each other without any intervening partition or space.

(*d*) The various explosives of the 3rd division of class 6 (ammunition) may be kept with each other without any intervening partition or space.

(*e*) The various explosives of class 7 (firework) may be kept with each other without any intervening partition or space.

Save as aforesaid, two or more descriptions of explosives shall not be kept in the same magazine.

12. The licensee and every person employed in or about the magazine shall take all due precaution for the prevention of accidents by fire or explosion in the same, and for preventing unauthorized persons having access to the magazine or to explosives therein, and shall abstain from any act whatever which tends to cause fire or explosion, and is not reasonably necessary for the purpose of the work in such magazine.

13. The distances to be maintained between the magazine, or any part thereof, and other buildings and works shall be those specified in the distance* schedule (or "schedules" as the case may be) in Form H, attached to this license. G. N. No. 2261, dated 18th April 1898.

---

*The form of this distance schedule is given below.
